

GREAT IDEAS FOR YOUR PARANORMAL VIDEO

Make your paranormal video the best it can be!

- 1 Your video can be totally planned out or you can fly by the seat of your pants. Do a run-through in your mind to get things just right, or just set up the camera and wing it!
- 2 Don't stress out too much trying to make it perfect - just keep it real.
- 3 If you make a mistake, don't start over. Just go with it, like you would if you weren't recording! We'll clean it up in the editing room if we think it needs fixing!
- 4 Remember to have fun!
